

HPC ACTION PLAN following tree survey May 2018, updated Jan 2020 after tree work carried out by Countrywide late 2019
updated June 2020

231 trees plus 6 groups of small trees surveyed May 2018 in recreation ground, cemetery & churchyard
 Some minor work carried out by staff, no further tree work to be done by staff until training received 2020.

Rough guide to cost is shown in column J- crown work £300, fell £300, pollard/prune at height £250, not including stump grinding.

Total expenditure for rec tree work 2019-20 £6,625. Included £2,700 of work originally planned for May 2020 but carried out earlier to protect any nesting birds.

Total 2020-21 budget £9550 rec and £1550 on cem/churchyard; rec cost includes estimated survey costs. PC wants annual survey.

Pollarding lime trees at entrance to cemetery will need to be done c. 2022

Following the tree survey suggestions, 11 trees have been felled as at end May 2020 & 6 are still to be felled or reduced (PC to decide)- these will need to be replaced.

2 more trees suggested for felling by M Ricketts which were not on original list - tbc. 2 trees were blown down winter 2019.

Works due for late 2019/early 2020 were delayed to obtain further advice. Further delays due to lockdown so now work is behind schedule.

Clerk queried some items in original survey late 2019; MR met surveyor. No changes except where stated below May 2020. No advice given re: replanting

Quote letters in column k correspond to quotes received/work done by Countrywide in late 2019.
