

People at work can become injured or taken ill. It does not matter if the injury or illness is caused by the work they do or not, it is important to give them immediate attention and call an ambulance in serious cases. The Health & Safety (First Aid) Regulations require the employers to provide adequate and appropriate first aid equipment, facilities and people so employees can be given immediate help if they are injured or taken ill at work. The minimum first aid provision on any site / location in the Parish will be implemented and will include;

- A suitably stocked first aid box
- An appointed person to take charge of first aid arrangements
- Information for employees about first aid arrangements

The appointed person will take charge of looking after the first aid equipment and facilities and calling the emergency services when required. Appointed persons do not need first aid training. All employees will be made aware of these first aid arrangements. All first-aid measures will be reviewed by the Council at regular intervals.

Appointed person:.....G Still.....
